Hello there! My name's Martin and I was born and raised in Denmark until I was 5 years of age, whereafter my family moved for a total of 9 years abroad, 4 of which were spent in England, and 5 in the US. That means that I've learned English and Danish speaking with locals, and I can quickly adapt to new cultural environments.

Currently I'm taking the first year of my masters degree in Computer Science from Aalborg University abroad at the University of California, San Diego. I sincerely hope my CV piques your interest.

I hold Danish and American driver's licenses.

EDUCATION

University of California, San Diego — Computer Science (2014–2015) Taking graduate level courses in Computer Science in connection with the first of my master's degree from Aalborg University.

Aalborg University — Master of Science, Computer Science (2014–2016) Working on a master's degree in Computer Science, studying abroad the first year.

Aalborg University — Bachelor of Science, Computer Science (2011–2014) Bachelor's degree in Computer Science (180 ECTS credits). I graduated with an average of B on the European ECTS scale.

EUC Nord — HTX (2008–2011) Technical gymnasium in Hjørring, Denmark. I took the highest level Math, Physics, English, Electronics, and Danish possible.

Bagterpskolen (2006–2008) Danish Folkeskole Education in Hjørring, Denmark.

J. R. Gerrits Middle School (2003–2006) Kimberly, Wisconsin, USA.

PROFESSIONAL EXPERIENCE

September 2012 → September 2014 Student software developer at Falck (30k employees) in their Falck Healthcare subsidiary. I developed new features and maintained a Rails web application used daily by around 40 of Falck's physiotherapists to journal their patients' developments. I was in constant contact

with the physiotherapists, listening to their feedback and, acting and implementing features to enable them to more efficiently get their job done.

Sept 2010 → January 2014 Ran my own company, *Divambu*. I developed and hosted web sites for small companies.

October 2008 → June 2010 Service worker at Fakta a/s (part of Coop Danmark, 36k employees). I was in direct contact with customers and fulfilled everyday tasks required to run a busy grocery store. I worked during evenings, weekends, and holidays alongside attending school full-time while I was under 18.

OTHER ACTIVITIES

July 2012 → March 2014 Mentor, Project [Solskinsunge](#) 2012. Volunteer work, where we arrange bi-monthly social gatherings for teenagers aged 15–18, most of which are second generation immigrants.

January 2013 – September 2014 Elected student member of the Study Board of Computer Science at Aalborg University. The Study Board consists of 5 students and 5 professors, representing the student body and faculty groups. Here, we took on responsibilities for undergraduate and graduate programs within the Computer Science group and their curricular. We discussed, among others, qualification and exemption applications, quality assurance, etc.

SKILLS

I love learning new techniques, methods, and tools, but there are a few technologies and systems I have more experience with than others:

Operating systems Basic understanding of most Unix-like systems: Ubuntu, Debian, CentOS, Arch Linux, Mac OS X.

Servers and databases Nginx, Postgres, MySQL.

CMS-systems I've set up systems with Wordpress, phpBB, Octopress.

Revision control Git, SVN.

Programming, scripting, and markup languages \LaTeX and X_{\LaTeX} , HTML, CSS, C, C#, Java, JavaScript and jQuery, Ruby and Ruby on Rails. Currently learning: Haskell, Swift.

LANGUAGE

My native language is Danish, but almost everything I write and read is in English.

Danish mother tongue

Spoken English fluent

Written English fluent

INTERESTS

When I'm not in front of my computer, I love to enjoy a cup of tea and read non-fiction. There is also nothing better than traveling the world, so I try to do that as much as possible, and thankfully due to my fantastic friends, I've had quite a few amazing experiences traveling to visit them. I also enjoy electronic and classical music. Keeping my body healthy and in shape is also important to me, as I believe it keeps my mind fit too. Thankfully, I quite enjoy cooking, and working out, and recently I have started getting into biking thanks to my dad's interest (he biked from Denmark to Paris, France!) while jogging regularly.
